Vp plc

Robust AGM statement, on track for FY expectations

Today's AGM statement confirms another resilient performance in the early months of FY26 and reiterates full year expectations. Recent periods have seen Vp deliver consistently strong results and meaningful strategic progress (e.g. closer collaboration across the Group, evolution of digital roadmap) despite the mixed market backdrop. The Brandon Hire Station recovery plan continues and should be materially complete by the end of the financial year. Vp has an excellent track record of sector leading returns and attractive earnings growth over the long term, which has underpinned an unbroken 30+ year dividend record. We expect FY26 to be another successful year and reiterate our 1000p Fair Value estimate.

A very familiar message – resilient trading despite mixed market backdrop

Vp's AGM update confirms a resilient performance over Q126 despite the mixed end market backdrop. This has been very much the theme of recent years as the Group's specialist focus and diverse spectrum of end markets have underpinned sector leading returns.

Key Infrastructure market leads the way

Infrastructure continues to benefit from strong demand from the transmission sector, particularly in Germany. The Board remains optimistic about water opportunities in AMP8, whilst Rail activity remains subdued, particularly in relation to CP7. In **Construction**, specialist activities continue to perform well, whilst general construction market conditions remain challenging, and the Brandon Hire Station recovery plan continues. The smaller end markets of **Housebuilding** and **Energy** have performed broadly in line with expectations.

Attractive valuation with 7% dividend yield

As we have written previously, current valuation ratings are very low by historic standards (FY26 P/E of 8.3x versus Vp's long run average of c.12x) with the attraction of a 7% dividend yield. We reiterate our 1000p Fair Value estimate (<14x FY27 P/E), highlighting significant earnings growth potential (organic and acquisitive) over the medium term.
